**BioXeco Fog.**

Ecologically Safe disinfectant
Based on stabilised hydrogen peroxide
(Colourless, odourless, biodegradable)

**General**

BioXeco Fog. is a disinfectant for the disinfection in Medical environmental areas, and air treatment to control MRSA- MDR strains and other micro-organisms in all Medical facilities, hospitals, and laboratories?

**Properties**

- Skin safe-eco-friendly
- Biodegradable – Non Resistance Formula
- does not foam – non Carcinogenic
- odourless and colourless
- completely miscible with water
- active up to a temperature of 113 °C
- remains active and stable for longer periods in the absence of pollution (“depot effect”)

**Applications**

Suitable for eliminating bacteria, fungi, spores, viruses, algae and amoebae.

**Directions**

* Disinfection of (Medical Environment & air disinfestation using ULV Foggier, room size between 6000-7500cft...etc.)

  First clean the room very well. Dilute 250 ml of Bioxeco Fog in 5 litres water inside the recommended fogging machine. Turn on fogging machine. All doors and windows must be closed during fogging (Use 1 Ltr for 1000-1500 cft)

* Disinfect using BIOXECO 3DF:-

Roam Chemie NV Belgium produced and recommended a complete system with fogging machine with highly effective monitoring system for the time and peroxide rate, this machine called Bioxeco3DF.

In case you need to use any small /different fogging machine, please review with the technical department in Roam Chemie
Specifications
Appearance: colourless, odourless liquid
Active components: hydrogen peroxide as % (12.1-12.4%)
Silver stabiliser as % (0.0063-0.0088%)
pH (20 °C): 3
Specific density (20 °C): 1.043-1.0459kg/l

Biodegradability
Bioxeco fog is biodegradable due to its decomposition into oxygen and water.
(in accordance with the AFNOR T 73-260 directives).

Storage Conditions:-
Storage rooms: room temperature, clean, lockable, joint less, smooth concrete floor. Don’t allow to store together with alkalis, reduction agents, metallic, salt and combustible substances.

Safety
1. Keep out of reach of children.
2. Keep away from food, drink and animal feeding stuffs.
3. When using does not eat, drink or smoke.
4. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
5. After ingestion of the undiluted product, drink plenty of water.
6. Contact of the undiluted product with the skin should be avoided. In case of contact with the undiluted product, wash the skin with plenty of water.

Packing
- Cans of 5-10-25 litres
- Containers of 1000 litres

Storage life
In closed packing the product can be kept for at least 2 years.
